

Dance On

Jamie Grace

If you're feeling kinda lame
'Cause nobody knows your name
Gotta stand up right in front of the crowd
Don't you know that you were made
For something more than just a fail
You're a beauty and you gotta know how

So when they laugh all night
When they say you ain't tight
Don't you know that you're doing something right
And if they call you names
Then you just need a break
Let me take you, take you, take you to a place

You gotta dance on
Let me see you get your dance, dance on
Put your hands in the air
Do that right-left step
Let me see you get your dance, dance on
Don't let them look down
'Cause you're a little young
Let me see you get your dance, dance on
You gotta dance on
Let me see you get your dance, dance on

So you know what you believe
And you really wanna scream
Want to tell the whole, whole wide world
But it's not so cool
To shake it up, you'd be a fool
If anybody heard you're starting a storm
But I never read where it said
To be calm and collect
Last I checked, we got some mountains to move
So get out your seat, get on your feet
We've got some earth-shaking to do, yeah

But then they laugh all night
Then they say you weren't tight
Then you know that you're doing something right
And if they call you names
Then you just need a break
Let me take you, take you, take you to a place

You gotta dance on
Let me see you get your dance, dance on
Put your hands in the air
Do that right-left step
Let me see you get your dance, dance on
Don't let them look down
'Cause you're a little young
Let me see you get your dance, dance on
You gotta dance on
Let me see you get your dance, dance on

So put your hands in the air
And do that right-left step (right-left step)

And get your dance, dance, dance! (dance, dance, dance!)
And get your dance, dance on
Your dance, dance on (yeah, yeah, yeah)
Put your hands in the air (hands in the air)
And do that right-left step (right-left step)
Get your dance, dance, dance! (dance, dance, dance!)
And get your dance, dance on
Your dance, dance on

You gotta dance on
Let me see you get your dance, dance on
Put your hands in the air
Do that right-left step
Let me see you get your dance, dance on
Don't let them look down
'Cause you're a little young
Let me see you get your dance, dance on
You gotta dance on
Let me see you get your dance, dance on
