

Dreamers

Jamie Grace

Somebody call the girls cause we're still movin'
Time just keeps on spinning and we're dreamin'
I thought it was the end but I'm believin'
There's something more
Somebody call my girls cause I'm still dreamin'
I thought about giving up but I'm still goin'
Turns out the world just might be waiting for us
So keep holding on to somethin'
We're still the same ole dreamers

Couldn't catch a break, didn't wanna play along
New melody, same optimistic song
But nothin' here is guaranteed
We're broken people, broken things
And I won't let the dust take over me

Cause I'm still movin'
Time just keeps on spinning and we're dreamin'
I thought it was the end but I'm believin'
There's something more
Somebody call my girls cause I'm still dreamin'
I thought about giving up but I'm still goin'
Turns out the world just might be waiting for us
So keep holding on to somethin'
We're still the same ole dreamers

I wonder what the clouds and stars must think
When we feel any task is out of reach
I've never had to shine the sky
Or shadow everyone for night
Why must I overcomplicate these things

Getting older and I feel tired
My knees sometimes make sounds but I'm surviving
Apart of growing up
You fail and try again and again
And you keep dreaming

Somebody call the girls cause I'm still movin'
Time just keeps on spinning and we're dreamin'
I thought it was the end but I'm believin'
There's something more
Somebody call my girls cause I'm still dreamin'
I thought about giving up but I'm still goin'
Turns out the world just might be waiting for us
So keep holding on to somethin'
We're still the same ole dreamers

So keep holding on to somethin'
We're still the same ole dreamers
