

Good Thing

Jamie Grace

Not worried if they know me
Not worried if they don't
Just gonna keep the pedal
Pushed all up in the floor
Stilettos on the bass
Got the banjo tuned just right

My mama taught the teacher
Do well and right and good
Keep your friends in your corner
Call you out when they should
Never too late
To start again and shine the light

I'm gonna say it to you simple
When it starts gettin' dimmer
It just might be you got to look inside and remember

It's a good thing to feel good
It's a good thing to feel free
It's a good thing to feel good
Don't worry
It's a good thing to feel good
It's a good thing to feel free
It's a good thing to feel good
Don't worry who like me

Me, myself and I, got
Some growin' up to do
Get lost in my emotions
Like everybody do
Therapy tomorrow
But let me just complain tonight

Get me some eucalyptus
I think I'm feeling sick
Somebody call the preacher
Doctor and the pharmacist
Dark out here
Don't think that I can shine the light

I'm gonna say it to you simple
When it starts gettin' dimmer
It just might be you got to look inside and remember

It's a good thing to feel good
It's a good thing to feel free
It's a good thing to feel good
Don't worry
It's a good thing to feel good
It's a good thing to feel free
It's a good thing to feel good
Don't worry who like me

I'm proud of you darlin'
And all that you've done
The woman you are

Took hard work
You wouldn't be here
If you gave up
But you didn't give
No you didn't give up

I'm proud of you darlin'
And all that you've done
The woman you are
Took hard work
You wouldn't be here
If you gave up
But you didn't give up

It's a good good thing

It's a good thing to feel good
It's a good thing to feel free
It's a good thing to feel good
Don't worry, don't worry
It's a good thing to feel good
It's a good thing to feel free
It's a good thing to feel good
Don't worry who like me
