

Marching On

Jamie Grace

There's somethin' about us
We were made for moments just like this
There's somethin' about us
When the music drops and the spotlight hits
There's somethin' about us
We don't always try but we always stand out

There's somethin' about us
Our mamas call it bravery
There's somethin' about us
When we're sick and we fall to our knees
It sparks a light in us
To find a hope that we will not give up
We won't give up, no

'Cause we are warriors
And we are beautiful
Even with our scars
We march on, 'cause we are fighters
We're marchin' on, on, on

There's nothin' about strength
That says you gotta be older, gotta be taller
Nothin' about strength
Says wait until the battle's over
Even if you throw a punch while you're cryin'
At least you're still fightin', yeah

We are warriors
And we are beautiful
Even with our scars
Yeah, we march on, 'cause we are fighters
We're marchin' on, on, on

There's somethin' about joy
When you find it you can't let go
It's like a tic you can't ignore
It comes through all the pain you're holdin'
There's somethin' about joy
In the middle of any kind storm

There's somethin' about peace
It's knowing you were made from more
Than any broken piece, created for a reason
Oh, there's somethin' about peace
In the middle of any kinda storm

You are a warrior
And you are beautiful

We are warriors
We are beautiful
Even with our scars
We march on, 'cause we are fighters
Yeah, we march on, 'cause we are fighters
We're marchin' on, on, on
We're marchin' on, on, on
