

# Washington

Jamie Grace

I don't feel like smiling  
I don't feel like singing  
Just one of those days when I wanna hide away from the world  
But I put on a game face  
Even when I'm feeling lazy  
I gotta get get get up it's time to face the world  
Even when it don't don't feel like a beautiful day

I was in Washington  
On a west coast run  
It rained for days all over my face my joy was gone  
But Washington  
I see your sun  
And I can almost hear the birds singing over me  
That it's time to be free

To do do it's time

I try to look at the bright side  
Even on the dark nights  
When all my insecurities mess with me  
Oh I know that I'm worthy far beyond what I see  
And nothing is forever even when I can't forget history  
And even when it don't don't feel like a beautiful day

I was in Washington  
On a west coast run  
It rained for days all over my face my joy was gone  
But Washington  
I see your sun  
And I can almost hear the birds singing over me  
That it's time to be free

To do to to to to  
To do to to to to
