

# Closure

Jamie Lawson

They say time's a healer  
What if I don't wanna heal?  
What's the point in feeling better  
Without you here to make it real?

'Cause it's hard to accept  
That the world hasn't kept  
You right here next to me

So what use closure  
When you don't want love to be over?  
What use closure  
When you don't want love to be over?

My friends are getting worried  
Maybe I should see someone  
But there's no way I'm in a hurry  
To move on

So what use closure  
When you don't want love to be over?  
What use closure  
When you don't want love to be over, over?

I keep holding the pain 'cause I need it  
Let the love that remains keep bleeding, bleeding

'Cause it's hard to accept  
That the world hasn't kept  
You right here next to me

So what use closure  
When you don't want love to be over?  
What use closure  
When you don't want love to be over, over?

What use closure  
When you don't want love to be over?  
What use closure  
When you don't want love to be over?
