

Don't Say You Don't If You Do

Jamie Lawson

I know love won't hold all the answers
I know time goes by so fast
There were one too many chances
This time I want this time to last

But don't say you love me if you don't
Don't say you want me if you won't
Don't say you love me if you don't
Don't say you don't if you do

You can't smoke a joint without knowing sadness
And you can't speak the truth without occasional lies
There'd be no good without a little badness
There'd be no love without that look in your eyes

Don't say you love me if you don't
Don't say you want me if you won't
Don't say you love me if you don't
Don't say you don't if you do
Don't say you don't if you do
Don't say you don't if you do, oh

Times like these come rolling on through
You find yourself and they're gone
A hold like this comes calling on you
You can wait but don't you wait too long
'Cause when you find it
Oh no no, you should not deny it

Don't say you love me if you don't
Don't say you want me if you won't
Oh, don't say you love me if you don't
Don't say you want me if you won't
Don't say you love me if you don't
Don't say you don't if you do
Don't say you don't if you do
Oh, don't say you don't if you do, if you do
