

# She Sings for Me

Jamie Lawson

I sing for the lost, I sing for the lonely  
'Cause I know that I won't be the only  
One who feels this way  
I sing for my family, I sing for my friends  
Songs for the heart where the darkness descends  
And wait on the morning  
Wait on the morning to come

When she sings for me  
She sings for me

Garden is growing up twisted and tangled  
I write your name in the dust on the mantle  
And sign off with a heart  
Sign off with a heart, then an x

When she sings for me  
She sings for me

And I'm hanging on another miracle  
Never hearing anything at all  
Till everything is beautiful  
When she sings for me

And I'm hanging on another miracle  
Never hearing anything at all  
Till everything is beautiful  
When she sings for me  
Sings for me  
She sings for me
