

When It Comes to Love

Jamie Lawson

You can spend your life running down a dream
Though you may fall and hurt your knees
Nothing worth having comes easily
Not when it comes to love

Don't be too scared and don't be too shy
Try not to let life pass you by
There'll be no answers if you don't ask why
Not when it comes to love

When it comes to love
You blew the roof off this little heart of mine
When it comes to love
You're the only truth I'll ever need to know so whatever you find

I will love you whoever you come to be
And should the apple fall and roll away from this tree
As long you're happy, it won't matter to me
Not when it comes to love

When it comes to love
You blew the roof off this little heart of mine
When it comes to love
You're the only truth I'll ever need to know so whatever you find

Go on, grow wild, may you discover
A soul in this world unlike any other
I hope you find the one the way I found your mother
When it comes to love
When it comes to love
When it comes to love

I hope you find the one the way I found your mother
When it comes to love
When it comes to love
