

# Game For Fools

Jamie Lidell

The first moment you hesitate  
Better ask yourself why  
Don't you quit until it's too late  
Until something inside has died

When you're paralyzed  
No directions at all  
Found out some way apart  
Now there's only space to fall

When you're losing  
Even if you know the rules  
Cause it's a game for fools

The first moment you hesitate  
Better ask yourself why  
Don't you quit until it's too late  
Until something inside has died

Yeah it's easy down the light  
To make a map of your lies  
You can't keep on keeping the truth  
Where the sky  
Like ten(?) like it was all right  
And it was all wrong

And if you wasted so much time  
For ever trying to make up your mind  
Now it's clear  
You should have just moved on  
Simply packed your past and go yeah

Cause the first moment you hesitate  
You can kiss those plans goodbye  
Don't you quit until it's too late  
Or something inside might die

When you know yeah you know all the rules  
Must been playing the game for fools  
Congratulations, yeah you're winning  
The game for fools yeah
