

## Here To Stay

Jamie McDell

I get stronger in my mind everyday  
You move closer and I find I'm still afraid  
I don't know how you get me the things I do  
Every day I am testing my faith in you

And I realise maybe this time  
That my heart won't have to break  
And I'll be alright on the inside  
But I'm still afraid to say  
I'm here to stay

Sometimes I'll just press rewind  
Let the memories fade  
Leave the pieces I can't find and run away  
But with you I want to stay

And I realise maybe this time  
That my heart won't have to break  
And I'll be alright on the inside  
But I'm still afraid to say  
I'm here to stay

But I'm angry cuz the past  
Taught me love can never last  
And the beating in my heart will fade  
But I see a different light  
When you're with me here tonight  
Telling me that I will be ok

And I realise maybe this time  
That my heart won't have to break  
And I'll be alright on the inside  
But I'm still afraid to say  
I'm here to stay
