

# Life In Sunshine

Jamie McDell

I know we'll be alright I'm sure this time  
Today it's warm outside, today we're fine  
These days we live our lives like there's more to see  
But I've come to realise what's in front of me

I'm so hot got my feet on fire  
I'm so gone turn the beat up higher  
And we know we're living life in sunshine  
No time for stress we're all lazy  
And tonight we're gonna go crazy  
Cuz we know we're living life in sunshine

This ain't no TV show, this is life right now  
So turn up the radio sing the song out loud  
There's nowhere you need to be  
But right here beside the sea  
Today I lost my mind and I feel so alive

I'm so hot got my feet on fire  
I'm so gone turn the beat up higher  
And we know we're living life in sunshine  
No time for stress we're all lazy  
And tonight we're gonna go crazy  
Cuz we know we're living life in sunshine

This is the golden age driving in my car  
So listen closely baby, I'm loving where we are

I'm so hot got my feet on fire  
I'm so gone turn the beat up higher  
And we know we're living life in sunshine  
No time for stress we're all lazy  
And tonight we're gonna go crazy  
Cuz we know we're living life in sunshine [x2]

This is the golden age driving in my car  
So listen closely baby, I'm living where we are  
I'm loving where we are
