

No Womans Land

Jamie McDell

Help me understand why you hate that man so much
Girl, what did he do? Cheat and lie to you [?]

We're talking dirt on his feet
Tables on fire
Girls in a pool
Her shirt in the dryer
He's saying, baby, calm down
She's just a friend
Come on, my girl
Take me to bed

Oh and I [?] my hands
I used to love that man
And I can't understand
Building a house
A no womans land

And he's saying, baby, come back
I'll never lie
Sickness and health
You are my life
Then there's the coming home late
Smelling like smoke
Calling you names
All promises broke

Oh and I [?] my hands
I used to love that man
And I can't understand
Building a house
A no womans land

This is no womans land
