

## Sailor

Jamie McDell

See me shine, my lonely sailor  
Look for my light on darker days  
I'll be waiting, lonely sailor  
My only purpose, my life to save

He was raised by Mother Nature  
Always respectful, never afraid  
I was destined to be his anchor  
And understand he was born to sail

So see me shine, my lonely sailor  
Look for my light on darker days  
I'll be waiting, lonely sailor  
My only purpose, my life to save

Trees don't blow without a warning  
Waves keep rolling beyond your view  
Mother ocean will keep her captains  
Until the gray sky returns to blue

See me shine, my lonely sailor  
Look for my light on darker days  
I'll be waiting, lonely sailor  
My only purpose, my life to save  
My only purpose, my life to save
