

Every Lifetime

Jamie Miller

I remember night-driving down on Church Lane
Calling Dad to tell him I felt lucky
It was September 28th
Swear I'll never forget that day
Hmm

You had me laughing 'til my cheeks hurt
Hmm
And you weren't even trying to be funny
Walked you home in the rain
But I walked back not the same

I fell so hard
You caught me fast
I've never heard of love like that
Ten steps forward
And there's no going back
So

I pray if I died
That I would go before you
'Cause I don't think that I
Could live a day without you
You're everything I hoped for
But I never thought I'd ever find
Oh
Feel at home in your eyes
And I just wanna stay here
Through the tears and the fights
'Cause I can see it so clear
There'll be a time where
We have to say goodbye
I found you in this one
So, I'll find you in every lifetime

Growing old with you will be my biggest blessing
Holding hands while counting our gray hairs
We'll be toasting to the two of us
Thanking God as we raise our cups
'Cause me made it, we're the lucky ones
Oh

I pray if I died
That I would go before you
'Cause I don't think that I
Could live a day without you
You're everything I hoped for
But I never thought I'd ever find
Oh
Feel at home in your eyes
And I just wanna stay here
Through the tears and the fights
'Cause I can see it so clear
There'll be a time where
We have to say goodbye
I found you in this one
So, I'll find you in every lifetime

I found you in this one
I found you in this one
I found you in this one
So, I'll find you in every lifetime
