

Longer

Jamie Miller

If we done met when we were younger
Would've had more time making memories
Even just another summer
Could've been more nights we were losing sleep

All those sunsets I've seen
Would've looked so much better if we were together
Yeah, I know we've got forever

But I wish forever was longer
Than all the stories ever told
'Cause those pages have endings
But I can't let you go
When we're ninety-nine, your hand in mine
The whole lifetime of you and me, love
Still won't be long enough
I wish forever was longer
I wish forever was longer

I wish seconds feel like hours
Wish time wouldn't fly by quite as fast
If I could get some kind of superpower
It'd be making every minute, every moment last

And all those movies I've seen
Would've been so much better if we were together
Yeah, I know we've got forever

But I wish forever was longer
Than all the stories ever told
'Cause those pages have endings
But I can't let you go
When we're ninety-nine, your hand in mine
The whole lifetime of you and me, love
Still won't be long enough
I wish forever was longer
Forever was longer

I wish forever was longer
Than all the stories ever told
'Cause those pages have endings
But I can't let you go
When we're ninety-nine, your hand in mine
The whole lifetime of you and me, love
Still won't be long enough
I wish forever was longer
Forever was long... yeah, yeah
Woah oh, I wish forever was longer
