

# Nothing To Miss

Jamie Miller

I used to tell you everything  
Now I don't even wanna say hello  
I guess that's how it goes  
When you break down all your walls and build  
Your world around someone you think you know  
It hurts to find out you don't

I just wanted to love you so I  
I missed all of the signs  
If I knew what I know now I never  
Woulda held on so tight

How did we get here? How was I so wrong?  
I didn't see it till you were long gone  
I got memories of somebody who don't exist  
Thought if I lost your heart I would lose mine  
Thought it would break me, turns out I'm just fine  
'Cause I gave you everything I had to give  
And you left me with nothing to miss

I hope you're happy with your friends  
Who only want you when you're at your best  
Gone when it's anything less  
Maybe you're good at ruining good things  
Or maybe you're just a bad person  
A lesson to learn and  
I don't have it in me to hate you, no  
I just feel sorry for you

How did we get here? How was I so wrong?  
I didn't see it till you were long gone  
I got memories of somebody who don't exist  
Thought if I lost your heart I would lose mine  
Thought it would break me, turns out I'm just fine  
'Cause I gave you everything I had to give  
And you left me with nothing to miss

Nothing, nothing  
Nothing  
Nothing, nothing  
You left me with nothing to miss

I just wanted to love you so I  
I let you let me down  
But I won't be there to save you  
When it all comes back around

How did we get here? How was I so wrong?  
I didn't see it till you were long gone  
I got memories of somebody who don't exist  
Thought if I lost your heart I would lose mine  
Thought it would break me, turns out I'm just fine  
'Cause I gave you everything I had to give  
And you left me with nothing to miss

Nothing, nothing  
Nothing

Nothing, nothing  
You left me with nothing to miss
