

Early in the morning, last thing at night
Known a love like I have
You'd be falling down like rain

It's gonna be a long long long long time
Long long long long time
Long long long long time
Long long long long time
Long long long long time
Long long long long time

Early in the morning, last thing at night
Known a love like I have, no
You'd be falling down like rain

It's gonna be a long long long long time
Long long long long time
Long long long long time
Long long long long time
Long long long long time
Long long long long time

Early in the morning, no no, last thing at night
Known a love like I have time
You'd be falling down like rain

Nonono, it's gonna be a
Long long long long time
Long long long long time
Long long long long time for me
It's gonna be a long long long long time
Long long long long time now
Long long long long time

Gonna be a lonely time
For me and you
