

# Walls

Jamie N Commons

Yeah I know-woah-ow  
It's been a hard time my dear  
Yeah I know-woah-ow  
It's been a long time my dear  
It seems times are always changing  
Hmmm right here

That I will be a savior  
Biding through the flames  
When the walls come falling down  
When the walls come falling down  
I will be a savior  
Fighting through the flames  
When the walls come falling down  
When the walls come falling down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling  
Down, down, down, down

Oh my love  
Won't you take my hand?  
Oh my love  
Won't you understand?

That I will be a savior  
Biding through the flames  
When the walls come falling down  
When the walls come falling down  
I will be a savior  
Fighting through the flames  
When the walls come falling down  
When the walls come falling down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down

That I will be a savior  
Biding through the flames  
When the walls come falling down  
When the walls come falling down  
I will be a savior  
Fighting through the flames  
When the walls come falling down  
When the walls come falling down  
When the walls come falling down

Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down  
Down, down, down, down  
When the walls come falling down
