Driving

Jamie Scott

I've been drivin, down barry street
I've been drivin way to long
I was happy, my life complete
But you turned and the world went wrong
Are you some kind of criminal
I should've known right from the start
I suppose you think you're wonderful
Well honey, I'm not buyin

I've been drivin, down lonely street
I've been drivin way to long
And nobody sees anything
The doors open, but the lights ain't on
Are you some kind of criminal
I should've known right from the start
I guess now you have got it all
Well honey, I'm still drivin

Nothing they say, can bring you down
Been up in the clouds for to long now
And you don't want nobody by your side

heeey

I've been drivin, down barry street
I've been drivin way to long
I've been thinkin and I cant believe
When I turned baby you were gone

Are you some kind of criminal
I should've known right from the start
I guess now you have got it all
Well honey, I'm still drivin

Been drivin all my life ma
I've been dri dri dri drivin
You must be some kind of queen

Woaah yea
