

# Feel Me

Jamie T

How have you got to where you've gone to be young?  
How have you got to where you've gone to be young? (Feel me)

I'll get you each and every day  
In every type of way  
Well, each and every day

With a bunch of problems  
Wisdom teeth and your girl's getting you down  
With no damn money  
No cigarettes and no one adopting the pound  
With a bunch of feeling  
Feeling while breathing, feeling like talking or walking  
With a feeling, money in the pocket  
It's gone been robbed and now you got nothing  
With a problem dancing  
Wisdom teeth and the woman getting you down  
With the feeling fighting  
Pull it and right in and then look around  
With the feeling moving  
I got you, have you got happiness?  
I don't really care

How have you got to where you've gone to be young?  
How have you got to where you've gone to be young?  
How have you got to where you've gone to be young?  
How have you got to where you've gone to be young?

I'll get you each and every day  
In every type of way  
Well, each and every day

With a bunch of problems  
Wisdom teeth and your girl's getting you down  
With no damn money  
No cigarettes and no one adopting the pound  
With a bunch of feeling  
Feeling while breathing, feeling like talking or walking  
With a feeling, money in the pocket  
It's gone been robbed and now you got nothing  
(How have you got to where you've gone to be young?)  
With a problem dancing  
Wisdom teeth and the woman getting you down  
(How have you got to where you've gone to be young?)  
With the feeling fighting  
Pull it and right in and then look around  
(How have you got to where you've gone to be young?)  
With the feeling moving  
I got you, have you got happiness?  
(How have you got to where you've gone to be young?)  
I don't really care

I'll get you each and every day  
In every type of way  
Well, each and every day  
I can't wait  
Each and every day

Talk about your way  
Well, each and every day
