Between a birth cry And a death will There's just houses So lavish In your anguish I can tell You're chasing your tail Soaked through sheets She didn't die quite right So light up the leader So light up the leader So light a believer To the juggernaught days I give up I give in Just show me love Show me love You're never lost I'll never win Just show me love Show me love And ask the boy who would be king Just show me love Show me love I'll never ask for anything Just show me love, show me love Can't breathe Feed the black dog Refuse to breathe Refuse to fuck And oh my love She played a cool pinball They told me it rained Yeah, they told me it rained I give up I give in Just show me love Show me love You're never lost I'll never win Just show me love Show me love And ask the boy who would be king Just show me love Show me love I'll never ask for anything Just show me love, show me love Heavy, heavy, heavy, heavy, heavy monster sound (8x) I give up I give in

Just show me love Show me love You're never lost
I'll never win
Just show me love
Show me love
And ask the boy who would be king
Just show me love
Show me love
I'll never ask for anything
Just show me love, show me love

I give up
I give in
Just show me love
Show me love
You're never lost
I'll never win
Just show me love
Show me love
And ask the boy who would be king
Just show me love
Show me love
I'll never ask for anything
Just show me love, show me love

Just show me love, just show me love [x6
