

## Days Unknown

Jamie Webster

What we live and die for  
It keeps us racing when there's nobody after us  
All the things we've tried for  
They're ready waitin', but for now someone's parked up the bus  
I feel like kicking up a fuss

Gotta' try and keep walkin'  
'Til we can run and then there's nobody stopping us  
Hold the ladder, keep on talkin'  
And when we've climbed it there'll be nothing on top of us

Then we'll be shouting from the rooftops and alleyways  
Screaming "Baby, I'm home!"  
After all the bitter pills of anger and hits of alone  
Time to say goodbye to the phase of the Netflix days  
And scrolling down our phones  
No more time spent paying rent, to days unknown  
No more time spent paying rent, to days unknown

Lalalalala, Lalalalalalalala, La La  
Lalalalala, Lalalalalalalalaa, La Laaaaaah

Then we'll be shouting from the rooftops and alleyways  
Screaming "Baby, I'm home!"  
After all the bitter pills of anger and hits of alone  
Time to say goodbye to the phase of the Netflix days  
And scrolling down our phones  
No more time spent paying rent, to days unknown  
No more time spent paying rent, to days unknown

Lalalalala, Lalalalalalalala, La La  
Lalalalala, Lalalalalalalalaa, La Laa

Been up and down, we've been round and round  
Poorly led by all the Tory hounds  
And now the "¿captain's fired?" its time to let them see  
The life for them, is not life you and for me

Been up and down, we've been round and round  
Poorly led by all the Tory hounds  
And now the "¿captain's fired?" its time to let them see  
The life for them, is not life you and for me!
