

Tiny Garden

Jamila Woods

I put my hand by yours so you know I wanna hold it
I say my prayers at night but I know who controls it
I'm fallin' hard for you but I know I don't show it
I'll take your love for me but I know I don't own it

It's not gonna be a big production
It's not butterflies or fireworks
Said it's gonna be a tiny garden
But I'll feed it everyday. I'll feed it

Everyday, I'll feed it, everyday, I will
Oh and I lead you on
Everyday, I'll feed it, everyday, I will
Oh I don't mean to
Everyday, I'll feed it, everyday, I will
Oh and I'm scared to rush
Everyday, I'll feed it, everyday, I will
Oh but I need you

Doesn't matter what your friends say
Somethin's wrong with the pace
You fall in love everyday now
I think of you when I wake
A premonition of fate
I put my flaws on display
To scare you away
You put your feelings on hold
Winter came and it got cold
You wanna be sure that I'm sure
That I want you
Not just someone fun to do
Someone to hold in zero below
You ask why I'm so cold? I
Iceberg heart, but look below
Iceberg heart, but look below... I'm sure.

It's not gonna be a big production
It's not butterflies or fireworks
Said it's gonna be a tiny garden
But I'll feed it everyday. I'll feed it.

Everyday, I'll feed it, everyday, I will
Oh and I lead you on
Everyday, I'll feed it, everyday, I will
Oh I don't mean to
Everyday, I'll feed it, everyday, I will
Oh and I'm scared to rush
Everyday, I'll feed it, everyday, I will
Oh but I need you

Water us so we may rise
Deeper in ourselves each night
Listen close and listen right
Don't wanna bring anything from our past lives. ayiyiyiyiyiiiii.
Cyphing the j down yea it's a vibe
Watch all the purpose we place multiply
Slowly over time

The seed has all the information
Yea I really wrote a weird verse
Lemme heal first
Then return to the space that we make
And you know I wake up and I give God His Praise
For making you
And making your mom too
And for making me yea I gotta sing His Name
I'ma pull up right now and we celebrate
Then he put the pipe down and I'm ok
So if I'm awkward just let me rock, let me be

It's not gonna be a big production (Gonna be)
It's not butterflies or fireworks (Butterflies or)
Said it's gonna be a tiny garden (Gonna be a)
But I'll feed it everyday. I'll feed it

Everyday, I'll feed it, everyday, I will
Oh and I lead you on
Everyday, I'll feed it, everyday, I will
Oh I don't mean to
Everyday, I'll feed it, everyday, I will
Oh and I'm scared to rush
Everyday, I'll feed it, everyday, I will
Oh but I need you

Caught me under waters more
I know my heart is slow
