

## Cloud 9

Jamiroquai

You pick me up  
Then you put me down  
Can't seem to find my way around ya  
See what you think  
Well you don't think it now  
You lost my love  
But someone found it

Now when the rain  
Falls upon my head  
I don't think of you, a-much at all  
Just one thing  
Seemed to make you care  
Who's gonna drive and take you home

Only a fool could walk  
Away from me this time  
I look up to heaven  
Every star I see is mine  
Only a fool could walk  
Away from me this time  
I'm walking on air and every cloud  
Is Cloud 9

You get your kicks  
Playing stupid tricks  
But I found another crutch  
You got me now  
Game, set and match  
Don't seem to be no catch  
I don't think she'll drive me to the wall  
(Oooh)

We go out at night  
And the world starts feeling right  
And she don't care about  
Hollywood  
I know you don't believe it  
But this time I really mean it  
I hope its clearly understood

Only a fool could walk  
Away from me this time  
I look up to heaven  
Every star I see is mine  
Only a fool could walk  
Away from me this time  
I'm walking on air and every cloud  
Is Cloud 9

I'm not the one, the one for you  
Can't change it baby  
I'm not the one, the one for you  
I know it baby  
I'm not the one, the one for you  
Can't change it baby  
I'm not the one, the one for you

Only a fool  
Could walk away from me this time, yeah  
(I'm not the one, the one for you)  
I look up to heaven  
Every star I see is mine  
(I'm not the one, the one for you)  
Only a fool  
Only a fool  
Could walk away  
I'm walking on air  
And every cloud  
Is Cloud 9
