

# Shake It On

Jamiroquai

What can I do?  
I can't take up and down like this no more, babe  
I need to find out where I am  
Before I reach the stars  
Yeah, before I step on Mars  
I've been spinning and I'm blue  
Thinking 'bout my life and how to change it  
Crazy thoughts I'd like to leave behind  
Oh yeah, it's gonna blow my mind  
Deadly days and killer nights  
It's hard to keep things tight  
I don't have a love affair  
With all these lonely flights  
Promises of liquid gold  
Mend my heart but not my soul, yeah

You know it won't be long  
So shake it on  
You know it won't be long  
So shake it on  
You know it won't be long  
So shake it on  
I'm alive, I'm alive, I'm alive  
And now I'm movin' on  
Gonna be a freak tonight

It's a solid state affair  
I can feel it everywhere  
Music still infecting me  
Music still protecting me, yeah  
Funking super starlight freaks  
Source of our delight  
If we're gonna do this thing  
Let's do it and do it right  
I know we can reach the stars  
I know we can reach the heights, yeah  
Oh yeah, I'm gonna shake it on

You, know it won't be long  
So shake it on  
You, know it won't be long  
So shake it on  
Gonna be a freak tonight  
You know it won't be long  
So shake it on  
I'm alive, I'm alive, I'm alive  
And now I'm movin' on  
Gonna be a freak tonight

(Gonna be a freak tonight)  
What can I do?  
I can't take up and down like this no more, babe  
Gonna be a freak tonight  
What can I do?  
People scream but I can't hear  
I don't care too much  
Crocodile and toxic tears can't kick this sense of touch

Life has lost its eloquence  
But I can't sit it on the fence  
Feel like being treacherous  
With the music still infecting us  
Gonna be a freak tonight

Gonna be a freak tonight  
You, know it won't be long so shake it on  
Gonna be a freak tonight  
You, know it won't be long so shake it on  
Gonna be a freak tonight  
Gonna be a freak tonight  
Gonna be a freak tonight
