

## Down At Malibu Beach

Jan & Dean

Get out of the sack at the break of dawn  
Gas up the truck, we'll soon be gone  
Grab your board and wax it down  
They'll all be comin' from miles around  
Tell your mom in school they teach  
The surf is best at Malibu Beach

Down the surfer 101  
You're all in store for lots of fun  
All the honeys'll be there too  
Three for me and two for you  
You're gonna hear the tires screech  
When the Woodies move out from Malibu Beach

Jump out of your Woody, you twist and shout  
Into the surf you paddle out  
Kneel on your board, get ready to ride  
The sets are forming right outside  
A little gas you might take  
Until you finally figure the break

All right, Billy, play a little

When you think you've had enough  
You grab a chick that's really tough  
You build a fire right on the sand  
And dance and dig the rockin' band  
From anywhere it's easy to reach  
The sun and fun at Malibu Beach

From anywhere it's easy to reach  
The sun and fun at Malibu Beach
