Hot Stocker

Jan & Dean

She's six years old but don't you knock her
'Cause at the drags she's the hottest stocker
Looks pretty square at first inspection
But she really scrams with fuel injection

She places every week number one in her class
With a 283 that runs on gas
When the flag is dropped you know she always squeals
Those race master slicks on big mag wheel

Hot Stocker sure is clean now
Wouldn't trade her for a limousine now
Hot Stocker with her bang shift hydro
Eats 'em up left and right out of the hole

Her locked rear end really makes her hustle
And that V8 mill's got a lot of muscle
A quarter mile ET 10.9
That '57 Chevy is nothing but fine

Hot Stocker sure is clean now
Wouldn't trade her for a limousine now
Hot Socker with her bang shift hydro
Eats 'em up left and right out of the hole

Her locked rear end really makes her hustle
And that V8 mill's got a lot of muscle
A quarter-mile ET 10.9
That '57 Chevy is nothing but fine
