

# The Best Friend I Ever Had

Jan & Dean

The best friend I ever had  
Never wants to talk to me again  
As long as he will live  
I know he won't forgive  
The way I went and took his girl from him

He was the best friend I ever had  
The nicest guy you'd ever wanna know  
He was just as close to me  
As a brother'd wanna be  
I never thought I'd have to hurt him so

I guess I knew the moment I met you  
That it was just a matter of time  
I tried my very best to forget you  
But right or wrong I had to make you mine

He was the best friend I ever had  
So don't you ever doubt my love is true  
'Cause when it came to choose  
Which one of you I'd lose  
I hurt the best friend I ever had for you  
He was the best friend
