

Happy State Of Mind

Jan Howard

Maybe I don't love you quite as much as I believe I love you baby
But don't tell me cause lovin' you's a happy state of mind
Maybe I don't need you quite as much as I profess to need you baby
But don't leave me cause needin' you's a happy state of mind
And who's to say anyway that love is not the game we play
Why's it always gotta be considered a condition of the heart hm
m hmm
As long as I feel warm inside wanted filled and satisfied
Who am I to be denied this feelin'
Be it love or be it just a happy state of mind

Maybe it's just something I've imagined in the hours when I'm asleepin'
But don't wake me cause dreamin's a happy state of mind
Maybe I just gotta have somebody and you're close and you're so
mebody
But don't leave me you've put me in a happy state of mind
And who's to say anyway...
You've put me in a happy state of mind lovin' you's a happy state
of mind
Needin' you's a happy state of mind lovin' you's a happy state
of mind
