

Circles

Jana Kramer

Just a thought you're around
Gets my head spinnin'
In circles
Just the way you say my name
Gets my heart turnin'
In circles

You got me spinnin' like a wheel
Oh, how you make me feel
It's more than gold on my fingers
Six feet down and forever
Cause where I am
It's where you begin
You packed up the pieces
And put me together
You're the only part of me unbroken
And I'm goin'
In circles

Every crook a little lie
Abandoned, connected, circles
Every star up in the sky
Every hello in goodbye
Every moment by your side
Is the meaning of my life

You got me spinnin' like a wheel
Oh, how you make me feel
It's more than gold on my fingers
Six feet down and forever
Cause where I am
It's where you begin
You packed up the pieces
And put me together
You're the only part of me unbroken
And I'm goin'
In circles
In circles

Just a thought you're around
Gets my head spinnin'
In circles
Just the way you say my name
Gets my heart turnin', turnin', turnin'
Round and round again

You got me spinnin' like a wheel
Oh, how you make me feel
It's more than gold on my fingers
Six feet down and forever
Cause where I am
It's where you begin
You packed up the pieces
And put me together
You're the only part of me unbroken
And I'm goin'
In circles

In circles
Just a thought you're around
Gets my head spinnin'
In circles
