Good Enough

Jana Kramer

There you go again, bringing me down
Making something out of nothing
Throwing around words, you know will hurt
Why you always fighting dirty?

I wonder if I'll ever be

The one that you fight for
The one that you'd die for
I wanna, I wanna be
The one that you stand for
Reach out your hand for
I wanna, I wanna be
Good enough for me

Go on girl, now take a deep breath
You're getting caught up in the moment
It's nothing that you ain't been through
You just gotta know it's true

To be the one that you fight for
The one that you'd die for
I wanna, I wanna be
The one that you stand for
Reach out your hand for
I wanna, I wanna be
Good enough for me

I wanna, I wanna be
Good enough for me

Go on girl, now take a deep breath
You gotta, you gotta
You gotta, you gotta be

The one that you fight for
The one that you'd die for
I wanna, I wanna be
The one that you stand for
Reach out your hand for
I wanna, I wanna be
Good enough for me

I wanna, I wanna be
Good enough for me
