

# Body First

Jane Zhang

Try a new body, I  
Stayed up all night, looking for something  
Looking for someone who  
Last longer than a night  
I'm searching for purpose  
From bar to bar, getting the numbers  
But nothing ever sticks

Only you, only you  
Only you get to me  
Been with the others and I've always felt like leaving them  
Only you, only you  
Only you pleasure me  
And I'm lovin' how you make it feel so easy yeah

Want you as my company, my company  
Cuz I love how you put my body first  
Would you be my company, my company  
For more than tonight, by my side

Want you as my company, my company  
Cuz I love how you put my body first  
Would you be my company, my company  
For more than tonight, by my side

Body first, yeah (first)  
Put my body first (first)  
Body first, yeah (first)  
(First)

You read every move so well  
No need to talk, know what I want  
It's like I touch myself  
You're like no one else  
Don't care if the lights are on  
I usually do but never with you  
We take it as it comes  
Sleepless until dawn

Only you, only you  
Only you get to me  
Been with the others and I've always felt like leaving them  
Only you, only you  
Only you pleasure me  
And I'm lovin' how you make it feel so easy yeah

Want you as my company, my company  
Cuz I love how you put my body first  
Would you be my company, my company  
For more than tonight, by my side

Want you as my company, my company  
Cuz I love how you put my body first  
Would you be my company, my company  
For more than tonight, by my side

Body first, yeah

Put my body first  
Body first, yeah  
Put my body first

Want you as my company, my company  
Cuz I love how you put my body first  
Would you be my company, my company  
For more than tonight, by my side

Want you as my company, my company  
Cuz I love how you put my body first  
Would you be my company, my company  
For more than tonight, by my side

Body first
