

Work For It

Jane Zhang

Shock my body
Light up the fire
Can you ignite it
Turn up the flame on it

Get it started
Pull me in close
I want you on me
Show me why you want it

Walk up to my session and
You know I'm turning heads
Got your eyes all on me but
You too proud to beg

You keep throwing signs
But I'm not a psychic
If you really want it
Better get it if you can

You keep sending me signals
It's like that subliminal
My body's talking
Without words
I know you feel it too
Elephant in the room
The energy's coming through

But imma make you work for it
But imma make you work for it
But imma make you work for it
Aaa work for it
Aaa work for it
Aaa work for it
Aaa but Imma make it work for it

Temperature's rising
I feel the heat
Somebody hit the siren
Turn up the flame on it

Get it started
You're all I need
I want you on me
Show me why you want it

Walk up to my session and
You know I'm turning heads
Got your eyes all on me but
You too proud to beg

You keep throwing signs
But I'm not a psychic
If you really want it
Better get it if you can

You keep sending me signals

It's like that subliminal
My body's talking
Without words
I know you feel it too
Elephant in the room
The energy's coming through

But Imma make you work for it
But Imma make you work for it
But Imma make you work for it
Aaa work for it
Aaa work for it
Aaa work for it
Aaa but Imma make it work for it
