

# Work For It

Jane Zhang

Hey hey  
Who who  
Work work  
Work work

Shock my body  
Light up the fire  
Can you ignite it  
Turn up the flame on it  
Get it started  
Pull me in close  
I want you on me  
Show me why you want it

Walk up to my session  
And you know I'm turning heads  
Got your eyes all on me  
But are you too proud to beg

You keep throwing signs  
But I'm not a psychic  
If you really want it  
Better get it if you can

You keep sending me signals  
It's like they're subliminal  
My body's talking without words  
I know you feel it too  
Elephant in the room  
The energy's coming through  
But Imma make you work for it

(Work work)  
But Imma make you work for it  
(Work work)  
But Imma make you work for it  
Aaa work for it (work)  
Aaa work for it (work)  
Aaa but Imma make you work for it  
Aaa work for it (work)  
Aaa work for it (work)  
Aaa but Imma make you work for it

Work  
Drippin Gucci skirt  
Skirt, skirt  
Lambo with no shirt  
One on one on earth  
New birth  
Made by closed car  
Imma make you serve and cook a word  
(Put her to work)  
Put on your glasses and look at the glasses sit in the padded  
Don't look at the past, I'm movin' too fast, they catchin' the mattress  
Go out classy, get with the fashion, five hunnid cash  
Open the gates to the magic, livin' the castle a bachelor  
Im tryna hit her [?], bend her right over the handle bars

I'mma make you work for it baby  
I been laid off, ain't been to work lately  
Tellin' me about her life she might be a narrator  
Sour like a patch kid, sweeter like a Now or Later  
Colors like the Oakland raiders in the cars I been takin' (Bentley)  
A mac if I need it to see me neighbors, I got acres  
Faded that's why they put me on cover of the Fader  
If she bringin' zero to the table, no questions, no relations  
I don't wanna date her

She gonna make you work for it  
I already know it  
All these moments we enjoyed  
I won't let her ignore  
Livin' life in the fast lane  
So many chains, I got back pains  
She's gonna ride for the whole gang  
There's only one thang

(But Imma make you work for it)  
Put in work  
Put in work  
Put in work  
(But Imma make you work for it)  
Work work work  
Work work work  
(But Imma make you work for it)  
Put in work (Aaa work for it)  
Put in work (Aaa work for it)  
Put in work (Aaa)  
(But Imma make you work for it)  
Work work work (Aaa work for it)  
Work work work (Aaa work for it)  
(But Imma make you work for it)

Temperature's rising  
I feel the heat  
Somebody hit the siren  
Turn up the flame on it  
Get it started  
You're all I need  
I want you on me  
Show me why you want it

Walk up to my session  
And you know I'm turning heads  
Got your eyes all on me  
But are you too proud to beg

You keep throwing signs  
But I'm not a psychic  
If you really want it  
Better get it if you can

You keep sending me signals  
It's like they're subliminal  
My body's talking without words  
I know you feel it too  
Elephant in the room  
The energy's coming through  
But Imma make you work for it

(Work work)

But Imma make you work for it  
(Work work)  
But Imma make you work for it  
Aaa work for it (work)  
Aaa work for it (work)  
Aaa but Imma make you work for it  
Aaa work for it (work)  
Aaa work for it (work)  
Aaa but Imma make you work for it
