

What an Experience

Janelle Monáe

We party every night
Then we all just walk off in the rain
Even angels fight, oh
And our wings just keep getting in the way

(Can't wait) Babe I can't wait
(Too strong) Our love's so strong
(Feeling) So deep in my heart
(Day long) I've been feeling it all day long
(Can't wait) Baby don't wait
(Too strong) Love's too strong
(Feeling) I feel it all over
(All day long) And oh!

What an experience
Can you feel it, feel it, feel it?
Oh, what an experience
Yeah, I can really really feel it
Oh, what an experience
Ooh, can you feel it, feel it, feel it
Oh, what an experience
Put your hand over my heart, oh

Yeah, the world's just made to fade
And all the parties some day blow away
But the memories come home (Yeah they do)
It's funny how they come back with a song

And baby I can't wait (no, no)
(Too strong) This love is too strong
(Feeling) I can feel it all over
(Day long) Ooh, baby I
(Can't wait) Babe, I can't wait
(Too strong) Love's too strong
(Feeling) I can feel it all over,
(All day long) and oh!

What an experience
And I can really really feel it
Oh, what an experience
Ooh, can you really, really feel it?
Oh, what an experience
Hey! I can really, really feel it
Oh, what an experience
Put your hand over my heart

Sweet sweet wine won't you feel so fine
I'm drinking the love you pour into my life
Open my mind like a good red wine
The sun will dance until the sky don't shine
When my eyes, see your eyes
You taking my body shake it left to right
In my life you're a good red wine
Yeah, and you keep buzzing my mind

What an experience
Baby, I really wanna touch your heart

Can you really, really feel it?
Oh, what an experience
Ooh, You know when you touch my heart
I can really, really feel it
Oh what an experience
Baby when we're heart to heart
I can really, really feel it
Oh what an experience

(Oh what an experience)
Tell no lies, I can tell no lies
Been thinking about you, thinking all the time
(Oh what an experience)
Red, red wine
Look into my eyes
Only one, been thinking all my life

(Oh what an experience)
Sweet, sweet wine
So kind
Thinking about you, thinking all my life
(Oh what an experience)
Red, red wine
Look into my eyes
Thinking about you, thinking all the time
