

Make Me

Janet Jackson

I see what ya doin
come here
so you think you're ready?
I just need you to...

Baby can you move?
make me groove
show me what you do
make me move
Baby can you move?
make me groove
show me what you do
make me move
baby make me...

you came here to sit or party
tell me what's the deal
gon' get up and shake your body
come and take me there

Ain't nobody else like you
only you got the moves you do
ain't nobody else move like you
only you got the moves to prove it baby
we're gonna have a good time
me and you gon get it tonight

Baby can you move?
make me groove
show me what you do
make me move
Baby can you move?
make me groove
show me what you do
make me move
baby make me...

Don't stop it baby... don't stop till you get it up
Don't stop it baby... don't stop till you get it up
Don't stop it baby... don't stop till you get it up
Don't stop it baby... don't stop till you get it up

I see you against the wall boy
what you waitin for
I want you to take control now
get up on the floor

Ain't nobody else like you
only you got the moves you do
ain't nobody else move like you
only you got the moves to prove it baby
we're gonna have a good time
me and you gon get it tonight

Baby can you move?
make me groove
show me what you do

make me move
Baby can you move?
make me groove
show me what you do
make me move
baby make me...

it's gettin hot in here
just how I like
we gon dance it up
until we see the light
if you feel like I feel
you can get it tonight
but first you gotta make me say
oooooooooooo make me make me baby
make me say
oooooooooooo make me make me baby

Baby can you move?
make me groove
show me what you do
make me move
Baby can you move?
make me groove
show me what you do
make me move
baby make me...

Baby can you move?
make me groove
show me what you do
make me move
Baby can you move?
make me groove
show me what you do
make me move
baby make me...

Don't stop it baby... don't stop till you get it up
(baby make me)
Don't stop it baby... don't stop till you get it up
(baby make me)
Don't stop it baby... don't stop till you get it up
(baby make me)
Don't stop it baby... don't stop till you get it up
(baby make me)
