

Would you really come and live with me  
We can watch TV when the nights are cold  
And it's hard to sleep  
When I'm hungry, when I'm old  
When I'm angry, when I'm cold  
Honey, I don't know

Would you really come and take my cares away  
Set me down in an easy chair and stay a while  
Child, that's a righteous thing you do  
To make somebody just this happy  
Like you done me to

I can see the years go down  
You and me, we'll paint the town  
Lord, if my mama and my papa could see me now

I'm great at building castles in the air  
And living there for days - you'd be amazed  
I live in dreams and when I can  
I go to sleep and there I am and there you are

When I'm hungry for the taste  
Of loving you and your embrace  
It's hard to wait  
'Cause I've been waiting here so long a time  
But if you say it's right, honey, I don't mind

We got all the years ahead  
Time for everything we said  
Lord, if my mama and my papa could see me now

I'd be happy living in a shack  
With all the plumbing in the back  
But you might not, you know  
So maybe we better have a home

I'd be glad on a farm with a million dogs  
Or a cave with bats  
But you wouldn't like that  
Maybe we gotta have a home

Will you really come and live with me  
I'd be so proud  
In loving you, I'm loving me  
I make it funny and I make you laugh  
'Cause it makes it easy getting past  
All the being scared

I can see the years go down  
You and me, we'll paint the town  
Lord if my mama and my papa could see me now  
Oh lord, if my mama and my papa could see me now
