

## Shine On

Janis Ian

And I'll wait by day and the still of night  
I am waiting for my guiding light  
Will it come too late to shelter me?  
Shine on, shine on, sweet harmony

There's a river flows on the edge of time  
And a garden grows underneath the sky  
Will it come too late to satisfy?  
Come on, come on, you shining sky

I hear the whistle of the wind upon the water  
And the echo of tomorrow in your laughter  
I feel the motion of the seasons on the harbor  
And the ever-changing tide  
Aill carry echoes of the night  
Into forever

I am waiting for my life to be  
One long unbroken symphony  
Will it come too late to shelter me?  
I long to be eternity

I am waiting for my life to be  
One long unbroken symphony  
Will it come too late to shelter me?  
I long to be eternity  
Come on, come on, eternity
