

Our dearest friend and companion
Finds himself in need of help
Little card trade done him wrong
Got himself locked up by the cops and dogs

It's all right, buddy we're comin' for you
It's not just what you say, it's just what you do
We'll put you in a barrel and float you away
As long as you're with us I promise you'll be safe

Free Sam, free Sam, free Sam
We all know he's an innocent man
Keep our drummer in the band
Free Sam, free Sam
Ohhhhkay
