

Your saetia is wasted  
I'm coming, my little alien

Get back in your ship  
Before they put you in  
They have no common sense  
My sweet alien

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now

Come, beam me up now  
Just come and beam me up now
