## Anna Rebecca

Jann Arden

Anna Rebecca remember me please When you are off living your life Anna Rebecca I know that you'll be Somebody's beautiful wife

Remember me at the old house Remember my face and my laugh Remember the days with our feet in the sand When you are happy at last

Anna Rebecca remember my heart And walking the streets of New York And if you don't mind can you forgive it all I didn't know what I had

Remember that December night Talking ourselves into day Waving goodbye from the back of the cab Please remember me that way

Please remember me that way Please remember me that way Please remember me
