

# Leave The Light On

Jann Arden

I never picture life  
Alone in a house  
Surrounded by trees  
That you'd forget yourself  
Lose track of time  
Not recognize me

All at once, I'm tumbling down  
Everything that was is gone

(Out of the dark)  
I leave the light on  
(In through the cold)  
I leave the light on now  
(Safe from the night)  
I keep my eye on the road  
(Good for the soul)  
For when you come home to me

I never saw myself  
Alone in a bed  
Smothered in sympathy  
I guess I figured out  
A bit too late  
That you would be obsolete

All at once, I fall to my knees  
Everyone that I love has to leave

(Out of the dark)  
I leave the light on  
(In through the cold)  
I leave the light on now  
(Safe from the night)  
I keep my eye on the road  
(Good for the soul)  
For when you come home to me

(Out of the dark)  
I leave the light on  
(In through the cold)  
I leave the light on now  
(Safe from the night)  
I keep my eye on the road  
(Good for the soul)  
For when you come home to me  
(Out of the dark)

Do you know my name  
Do you know my name  
Can you come out to play

I leave the light on  
I leave the light on now  
I keep my eye on the road  
For when you come home

(Out of the dark)  
I leave the light on  
(In through the cold)  
I leave the light on now  
(Safe from the night)  
I keep my eye on the road  
(Good for the soul)  
For when you come home

(Out of the dark)  
I leave the light on  
(In through the cold)  
I leave the light on now  
(Safe from the night)  
I keep my eye on the road  
(Good for the soul)  
For when you come home to me  
To me
