

# When You Left Me

Jann Arden

When you left me I was inside  
Of my head for a year  
All the memories that were broken  
Deeply buried there

Was my heart lost in the chaos?  
Never to be found

When you left me I got older  
I had all but died  
I was weak and out of breath  
I could not read at night

How you kissed me  
Burned into my skin  
Every moment  
Worlds were crumbling in

I can still hear every whisper  
I can taste your lips  
Just your heartbeat and I quiver  
I can picture this

All the colors  
Bleeding from the page  
Just like water  
Pouring down my face

When you left me nothing mattered  
All my life undone  
Only stillness only quiet  
Not one ray of sun

When you left me  
When you left me  
When you left me  
When you left me  
When you left me  
When you left me
