

## Yeah You

Jann Arden

I take off  
I touch down  
I set sail  
I run aground  
I have one more for the road  
It's the only thing that's keeping me afloat

I'm always gone, I'm never here  
Sometimes I want to disappear with you  
I'm choking on the atmosphere  
Cause all I want to be is near to you

I lay down  
I wake up  
Fill another plastic cup  
I watch the news to fall asleep  
It's the only place I keep you  
I'll long to keep you here with me

I'm sick and tired of moving around  
I wonder if I'm losing ground with you  
Afraid this love might dislocate  
If I can't go, if I can't stay with you

I would give it all away  
I'm sick and tired of moving around  
Another show  
Another town  
I'm lonely when I'm not alone  
Cause I'm out here and you're my home  
Yeah, you  
Yeah, you  
Yeah, you  
Yeah, you

I take off  
I touch down  
I set sail  
I run aground
