

# You Were Never Broken

Jann Arden

Leave them all the hand  
Everyone did hurt you?  
Leave them all the road  
Let them run over  
No one can stop you, you were never broken  
You were only open for a friend

Keep your body well, drink a lots of water  
Always look ahead, don't you wait for nothing  
No body can stop you, you were never broken  
You were only open for a friend

One day, one day is for you to fade  
Would you on be defended  
Your stand on that moutaigne  
you look down at the valey  
Every step you;ve take  
No body can stop you, you were never broke  
You were always hold in hand a friend
