

Body Temperature

Jann

I don't think I'm gonna sleep tonight
'Cause you're still inside my head
When I'm laying in my bed
And I wish that you were here by my side
We could read each other's minds
Or just let our bodies temperatures rise
Let bodies temperatures rise

Funny how the lights go down
Every time you're not around
I don't mind it though
Really don't mind tit though
'Cause in the dark I'm sitting still
I can't escape the way you make me feel
Fell

I don't think I'm gonna sleep tonight
'Cause you're still inside my head
When I'm laying in my bed
And I wish that you were here by my side
We could read each other's minds
Or just let our bodies temperatures rise
Let bodies temperatures rise

Oh, yeah
Let bodies temperatures rise, rise
