Janus

Don't speed, don't charm,
Don't cling or shake off
This advice when I'm driving
The same point home
You seize and you shiver
And your fear it doesn't help
Ice won't cling to wheels connecting
A frame that shakes.

I won't stand for charm
Seize or shake off
This advice when I'm driving
The same point home
So don't stand or charge
Or fear what may come
I'll shed pride before the promise
That keeps you so...

Safe, it's all you are now
Feeling numb and safe
Well it keeps you honest, numb and medicated
It's all you are now
Feeling numb and safe
Well it keeps you honest, numb and medicated.

We slid as you shook
The car careens as your head
Kissed the glass as it shatters
Over your arms
You seize and you shiver,
You freeze and you shake.
You climbed out of the car and walked away
With luck in your stead.

I won't stand for charm
Seize or shake off
This advice when I'm driving
The same point home
So don't stand or charge
Or fear what may come
I'll shed pride before the promise
That keeps you so...

Safe, it's all you are now
Feeling numb and safe
Well it keeps you honest, numb and medicated
It's all you are now
Feeling numb and safe
Well it keeps you honest, numb and medicated.

It keeps us all safe, it's all you are now
Feeling numb and safe
Well it keeps you honest, numb and medicated
It's all you are now
Feeling numb and safe
Well it keeps you honest, numb and medicated.
