Cantonese Boy

We're pushing through these farming towns We've worked hard ploughing over grounds

Red army calls you The call of the crowd Red army needs you It calls you now

Cantonese boy Bang your tin drum Cantonese boy Civilian soldier Cantonese boy Bang your tin drum Cantonese boy Red army calls you home

We're singing Marching through the fields We're changing The lives we've led for years

Red army calls you Red army needs you

Gentlemen you heard this call Raised your glass and called for more Only young men broke the wall Japan
