

I'm a Killer

Jarboe

how'm i supposed to do that
i never be able to give it back
and didn't you hear them say
you can't enter her
it's no place for beginners
it's an exclusive club
for those whose words
well they draw blood
then why did you kill
then why did i kill me
kill kill kill kill kill
killed killed
i'm a killer
so bring on the sticks and stones
the whips and chains
to stroke my bruises tender
the welts in vain
the shiny razor blade
caressing cuts
blessed are piss and shit
come now anoint
i lick your angry fist
i love your touch
i pray here everyday
yeah come and suck
so now obliterate
and feel the needles
come now infuse my hate
i am your mother
come in infuse my hate
i am your lover
so now obliterate
i am the other
blessed are spit and cum
i killed your lover
i pray here every day
yeah come and suck
so now infuse my hate
i love your touch
the water fills my lungs
the blood is pounding
the pain it floods my lungs
the drum is pounding
the pain it floods my brain
i kill your lover
i pulled it from the wall
and dialed the number
my heart stopped on the way
i felt life draining
come now obliterate
i am the other
come in infuse my hate
i kill your lover
i pray here every night
come in and feel my 'bite'
and now infuse my hate
and we'll obliterate

come now obliterate
i kill your lover
come now obliterate
i kill your lover
i'm a killer
i'm a killer
i'm a killer
i'm a killer
i'm a killer
i'm a killer
i'm a killer
i'm a killer
i'm a killer
...

"i'll be your killer"
